MASTER THE WATERS

FAST SURVEY BOAT 7.50

DOUBLE YOUR SURVEY SPEED

The Fast Survey Boat 7.50 is a real survey-machine. It allows high speeds on surveying and transits. It has a spacious and very comfortable cabin. With its trailerability, it is easy to reach any location by road.

SPECIFICATIONS

Model	Fast Survey 7.50
LOA (m)	7.85
BOA (m)	2.90
Draft (m)	0.70
Hull material	4/5mm Aluminium
Weight (kg)	2700
Propulsion	Diesel sterndrive
Speed - max (kn)	22
Fuel tank (l)	150
Range (nm)	100
Layout	Cabin
Crew (pax)	6

Great geographical scope

This survey boat doubles your speed during surveying at max. 30km/h surveys. And its 45 km/h top speed gives fast transits on water. Its low weight and size make it easily trailerable on a standard road trailer. Speed and weight give quick deployment on any location across the country.

Comfortable office on the water

Hull shape and sterndrive give a comfortable ride and controlled maneuvers up to high speeds. The efficient cabin provides for a generous workspace for data collection and direct processing. Double glass, aircon and heater make working very comfortable.

Clear data at high speeds

Two separate moonpools give plenty of room for carefree, fixed mounting of survey equipment, like a multibeam. The hull shape gives a clean water flow across the sensors, while permanently placed sensors minimize misalignment and recalibration. This set-up allows operators to only focus on onboard data collecting and processing.

Save time and money

- » Clear data at high speeds.
- » Double your daily coverage with 30 km/h surveys.
- » Fast transits with 45 km/h top speed.
- » Survey work and data analysis in great comfort.
- » Trailerable, so fast deployment across large distances.

Tell us what you need

Building good workboats is about making clever decisions. About safety, efficiency, costs. Tell us what you need, we'll tell you what we know. Call us any time at +31 6 2026 2006 or contact us at info@dutchworkboats.com.
