DUTCHWORKBOATS

MASTER THE WATERS

## HDPE SUPPORT TENDER 5.50

### PERFECT BOAT FOR EVERY DAY USE

This is all you will ever need in a small boat. It can push and tow and it has a high payload. It's the perfect boat for jobs close to the water. Easy handling, trailering and hoisting. And it's very strong and sturdy.

Weight (kg)	500
Propulsion	Outboard
Speed - max (kn)	35
Fuel tank (l)	2 x 25
Range (nm)	20
Layout	Several consoles
Crew (pax)	3

#### Sturdy multi-purpose boat

This V-shaped, tough HDPE hull is suitable for very diverse users. From marine engineers who work with their materials and equipment close to shore, to sailing coaches who support their pupils on open water. The HDPE Support Tender 5.50 has great sailing behavior and it never breaks. The pushbow is good for the occasional pushing job and for easy boarding. This boat is very, very practical for every day use.

#### Unbreakable HDPE

Compared to small ribs, other plastic boats or even small aluminium boats, this HDPE boat is much stronger and durable.

HDPE is well known for its high resistance to impact. For this type of boat, that makes all the difference. No punctures, no dents, the hull stays in shape even when abused. HDPE is highly resistant to growth, so the boat stays clean and keeps its speed.

#### **Tough and very practical**

- » The HDPE hull will stand every job and condition.
- » Sturdy boat for sustained every day use.
- » Very stable, sails very well.
- » No maintenance. No marine growth.

#### **Tell us what you need**

Building good workboats is about making clever decisions. About safety, efficiency, costs. Tell us what you need, we'll tell you what we know. Call us any time at +31 6 2026 2006 or contact us at [info@dutchworkboats.com](mailto:info@dutchworkboats.com).
